

Manage employee time without wasting any of yours

Track, schedule and protect your profits

Without a reliable time management solution, manually scheduling employee shifts, entering timekeeping data and monitoring productivity can quickly take over your day – not to mention open your business to risk. Even small errors can lead to inaccurate paychecks, ultimately hurting employee retention and your bottom line.

Skip the headaches and take back control with Auris.

Whether you have a handful of employees or a few hundred, our user-friendly software makes time management a breeze. With Auris, you can build schedules online, set up clock-in options, track billable hours, run detailed reports and so much more – all from your phone, tablet or desktop.

Protect your productivity

Say goodbye to wasting hours on messy spreadsheets. Our software streamlines scheduling and time tracking operations, so you're free to focus on the big stuff.

Ensure accuracy

Preventing costly mistakes has never been easier. Keep projects on track, timesheets accurate and payrolls error-free with precision-forward software.

Prevent time theft

Make buddy punching and out-of-range clock-ins a thing of the past. You can track, approve and deny time punches from anywhere without the need for an on-site manager.

Make smarter labor decisions

Wondering which move to make next to boost profitability at your business? Measure and track key insights to help pave the way for growth.

Get the best out of your most limited resource

Scheduling

Use tech to optimize employee schedules, so you can clear yours

- **Payroll budgeting:** Build schedules with drag and drop tech that estimates payroll and overtime expenses
- **On-the-go access:** Stay connected to schedules, employee hours and PTO balances via the Payroll+ mobile app
- **Shift swapping:** Allow employees to drop, pick up or request shift changes in real time from their phones

Tracking

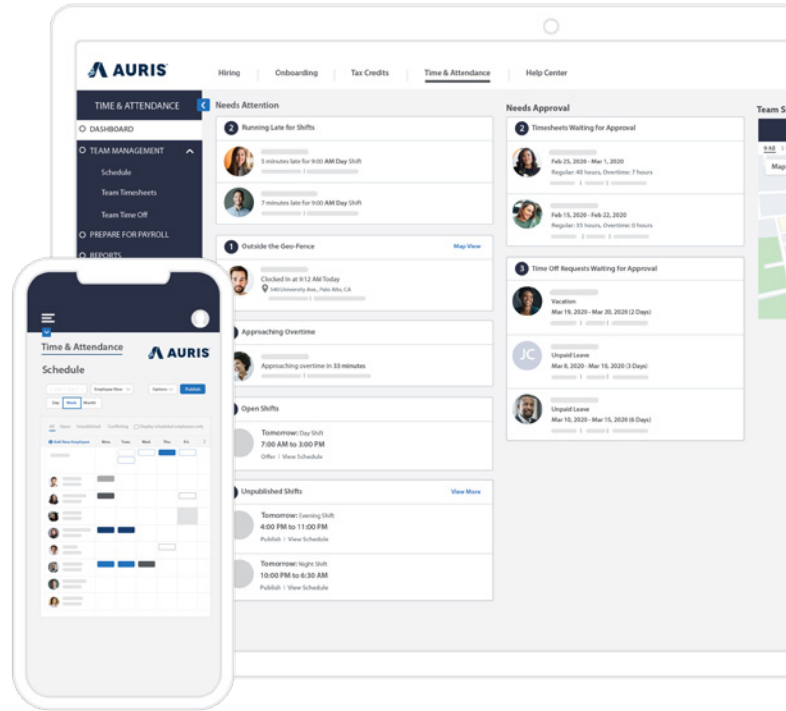

Keep tabs on your projects and people without breaking a sweat

- **Punching options:** Eliminate time theft and buddy punching with continuous tracking and mix-and-match punching options
- **Advanced timesheets:** Let employees upload relevant info, document a completed job, or include receipts alongside their timesheets
- **Labor distribution:** Track employee labor by cost centers, departments, workers' comp classification codes, jobs or projects as defined by you

Time off

Get shifts covered before they say "out sick"

- **Accruals:** Easily manage time off and view real-time data on employee hours earned, used and available
- **State-mandated programs:** Manage state-mandated sick leave automatically — our system accrues time based on each state's rules
- **Requests:** Get notifications for time off requests and respond with one click online or in-app
