

# Track, schedule and protect your profits

Whether you have a handful of employees or a few hundred, Heartland Time is an easy-to-use, automated time tracking and scheduling tool that grows with your business.

Streamline employee schedules, move shifts, approve requests, forecast and manage overtime expenses and so much more whenever you need — from your phone, tablet or desktop.

**Make smarter labor decisions in real-time with time tracking and scheduling tools you can trust.**

## Manage employee time without wasting yours.

**Squash scheduling headaches:** Build smarter schedules with drag and drop tech that estimates labor costs.

**Prevent time theft:** Use mix and match punching options and continuous tracking to enhance employee safety.

**Manage time off with ease:** Respond to requests in one click and easily access employee PTO balances.

**Protect your productivity:** Take yourself out of shift swapping and let staff initiate changes via mobile app.

## Ready to make up for lost time?

Get out of your scheduling bunker and back to the things that really matter with our fully customizable, mobile-accessible timekeeping solution that works at your desk or on the go.

Heartland Time integrates seamlessly with Heartland Payroll, so you can manage your staff from the first shift to the next payroll with an all-in-one employee management solution.
